Tim,

Just to follow up on our brief discussion yesterday, here's some correspondence regarding our meeting on John's draft paper on the CIPFPECAs in New Jersey.

During this call Sandra and Erica specifically asked for the higher level managerial briefing that we were not able to provide in last year's trip to NJ DEP. They said a Skype presentation would be appropriate.

I think this briefing will be essential for them as they try to understand and interpret the points raised in Johns' paper and the other related work we have underway.

We should probably be thinking about how we can provide information that they need to address their specific local (public health, legal, practical, political) concerns.

Thank you very much,

Andy

John,

I was able to discuss the question with Ken Kloo, Director on whether naming Solvay and Chemours in the paper would be helpful to DEP. He said he doesn't object to naming the companies, but he doesn't think it matters much if they end up being referred to as a "Facility" since their location is depicted on figures. He said we should defer to what EPA is comfortable with.

All,

A couple of other references for the occurrence CIPFPECAs in Italy.

Obscure, but possibly helpful.

Andy
